2211 Printed in Canada

for windows and doors

Mirage absorbs impact.

Comfort + Energy Savings...

Mirage Retractable Screens let cool breezes in and keep flying insects and bugs out. Minimize the need for expensive air conditioning and maximize cross ventilation in your home. Mirage offers a natural cooling solution ~ a better ventilated home will not only cut energy bills but also will feel more comfortable.

This is a professionally installed screen system that disappears into a compact housing and doesn't interfere with window or door functioning. Mirage Screens are virtually out of sight when not in use and can remain installed year round.

Versatility...

Mirage Retractable Screens can be made to fit almost any door or window application, including in-swing or out-swing doors, patio doors, entrance doors and French double doors. Door heights up to 110" and door widths up to 55" are available.

Single In-Swing

For use on windows, the maximum housing length available is 75" with a maximum 'pull' length of 55". Window screens can be mounted horizontally or vertically.

French Double Out-Swing

Mirage rolls away to offer unobstructed views unlike conventional stationary door and window screens and virtually eliminates the need for cleaning.

Looking to screen a unique outdoor space? Mirage Screen solutions include porches, poolhouses, gazebos, garages, RVs, mobile homes, and boat applications.

View our online photo gallery at www.miragescreensystems.com.

A World of Colours...

Mirage offers a wide variety of Standard and Designer colours. Choose from 7 standard colours shown below or select from our designer collection of 35 colours. A unique custom colour match program is also available. We use the highest quality paint formulated to exceed one of the toughest paint standards in the industry for UV and salt spray resistance, AAMA 2604.

All Mirage Retractable Screens are powder coated in-house by trained Mirage personnel. This is especially important to ensure proper adhesion of the aluminum parts on the retractable screens.

Colours may not appear exactly as shown. Contact your authorized Mirage dealer for proper colour samples. Please note an additional charge applies to our designer and custom colour program(s).

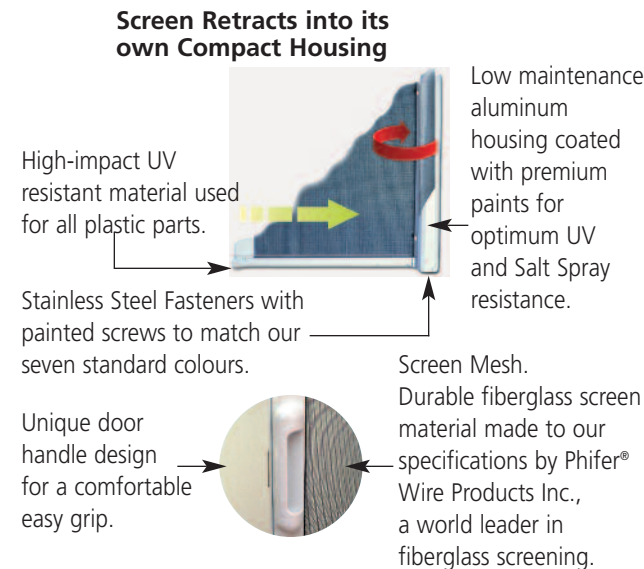

Standard Features...

- Adjustable Spring Tension
- Super Magnet – a corrosion resistant, secure latch system ideal for coastal areas
- Newly Designed Rollertube for smoother operation
- Deep track to prevent screen blowout
- Slide Bolt to hold inactive side of a French/double door in place

Optional Features...

- Bumper Stripping – protects small fingers from being accidentally pinched
- Loop lock to lock single or French/double doors
- Decorative Decal design options for mesh visibility

Precision Engineering...

Quality Installation...

Mirage Screen Dealers all have trained installers to ensure a quality finished product and a quality installation.

Limited Lifetime Warranty...

We Built Our Reputation on it.

Mirage offers a one year warranty on parts and labour and a limited lifetime warranty on all parts (except the screen material and speed reducer) under normal wear and tear. Ask your Dealer for details.

Good, Better, Best...

Mirage is the Best!

Not all retractable screens in the marketplace are alike ~ it's always best to do side-by-side comparisons of various product offerings. Differences in powder coating and engineering of components will be apparent, as will their ability to recover from the likes of pet or child collisions. Coastal area homeowners should also pay close attention to the corrosion-resistance warranted by the manufacturer.
